Guest Room

Axminster carpets feature exquisite designs and thick, lush pile. The yarn is mostly wool or wool blended with nylon, which results in a smooth and flat carpet surface, good resilience, high comfort, flame retardancy, and durability, making them suitable for guest room carpets.

Hotel Corridor

Axminster carpets, with their intricate and luxurious patterns, are highly suitable for upscale hotels. For public areas that require better resilience and wear resistance, Axminster carpets can fully meet both functional and aesthetic needs.
